MINI-TILLER

- The tough tiller built for smaller applications.
- Adjustable digging width of 11" or 21 1/2".
- Folds for easy transportation and storage.
- Can be used with edger attachments.

Introducing Yard Marvel's rugged versatile **Mini-Tiller** – a lighter weight design for home and garden use.

With its convenient folding handlebar assembly and manageable weight (90 lbs. with tines, only 75 lbs w/o tines), it can easily be transported in a small pick-up or car trunk.

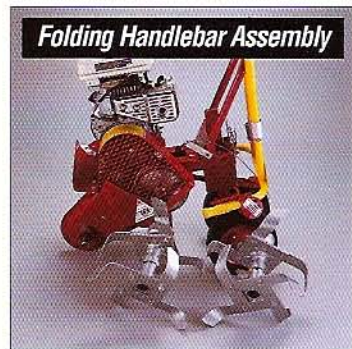

It's also easy to use. A patented rear hitch makes handlebar height adjustment a breeze. No tools required. And the back wheels automatically slide up when the holdback bar slides down for digging.

Built with Yard Marvel quality standards, it uses a standard #1010 chaincase assembly and offers a choice of two engines* – a 3 hp Honda; or a 3.5 hp Briggs and Stratton.

Call or write today for complete specifications and current pricing! **(800) 547-YARD (547-9273)**

Also available from Yard Marvel:

Renter Tillers • Motor Rakes • Plugger-Aerators

TINES DESIGNED FOR AGGRESSIVE DIGGING ACTION
